

ONIX-KIT-FMC-IPASS-FMC-8X

FMC to FMC over iPASS Cable x 8 Lanes – KIT

Product Overview

The ONIX-KIT-FMC-IPASS-FMC-8X integrates two cards and one Cable. The KIT provides a complete solution for FMC HPC to FMC HPC connection over Cable. The cable length supported is up to 2 meters. Up to eight lanes are supported. The KIT includes the following parts:

1. Two ONIX-FMC-IPASS-8X cards.

A VITA 57.1 compliant single-width HPC FMC and enables flexible speed compatibility for applications ranging from 1.5Gbps up to 14Gbps. The iPass interface supports industry standards for high-speed, multi-lane internal and external systems.

2. Molex 74546-0801 Cable.
